INSPIRATION AT WORK

# AGILE WORKSPACE

**DID YOU KNOW THAT**

**70% of Businesses Move  
due to lack of space**

**That extra cost can impact  
a business...**

**especially if the economic  
climates changes...**

**But what if  
there was a  
different way  
to make more  
space and stay  
where you are?**

**Ever thought about  
turning your space  
into a smart office  
workspace?**

That's like gaining an extra floor!

Businesses that have moved to a smart office solution have seen space saving of over...

33%

**Smart storage systems dynamically provide storage to staff when they need it!**

**So if you work on flexible hours or have part-time teams – they only take the space when they are in the office**

**Smart Desks can be booked in when needed by a member of staff and when they are not in use, they become available for others.**

So if your sales team are on the road - their desks are available for other members of the team

**There are so many different ways smart offices can help a business stay ahead of the space game**

**To take the first steps towards an agile workspace simply...**
